At the end of the day, if you enjoyed what the original Honey Select is offering, I am sure you will have a great time with this.. You want to get it on not just with the girl you have created, but really with anything that has a pulse and a set of boobs You will need to talk to the new girl and get to know her before she lets you have your way with her.. Honey Select 2 Install Yóur DesiredHoney Select 2 Install Yóur DesiredThe detail yóu can get into here is once again nuts and something that rivals the WWE gamés when it comes to creating characters.

Locate the executable file in your local folder and begin the launcher to install your desired game.. I do like how they have added a game aspect here and that you are kept on your toes as you play the game.. However, you have many other girls that will proposition you for sex and this is rather interesting.. If anime-style girls with giant boobs who are up for anything is what you want, well this expansion is going to certainly be something that gets you going.
